Antioch Bows Out To Dundee 76 to 73 at Regional Tournament

Sequoits Close Home Season With Heartbreaker Loss to Ela-Vernon

The Antioch Sequoit cagers wound up the season last night by losing to Dundee, in the first game of the Regional. The game was well-played by both teams and the locals showed a great improvement over their first showing against Dundee before Christmas when they were shellacked 82 to 45.

Top scorers for Dundee were Lindsey with 23, and Puffpuff with 21. Frank Walsh hit the hoop for 18, followed by Herbst, 14, Reckers, 12, and Huml and Fish with 10 each. The Sequoits were hampered in the final quarters of the game by the loss of Herbst, Cardiff and Fish through personal fouls.

Antioch's loss of the game can be traced to the superior shooting of the Dundee team at the foul line. The local sank 29 field goals to the opposition's 21, but Dundee hooped 34 of 48 free throw attempts, while Antioch accounted for only 15 free throws.

Coach Larry Leon said today that he was well pleased with the Sequoit team, and he expressed confidence in a better season for the coming year saying that most of this year's players had had no previous varsity experience and that the team is made up of underclassmen, most of whom will be back next year.

In the hardest fought battle of the season, Antioch lost to the Ela-Vernon Bears on her home floor Saturday night in an overtime game 68 to 67.

The loss permitted Ela-Vernon to tie with the Glenbrook Spartans for the Northwest Conference championship and thereby retain in Lake county the honor that Antioch held last year.

Perhaps it was a telephone call from Wauconda that the Bulldogs there had unexpectedly defeated Glenbrook 73 to 71 that gave the Bears the inspiration to come from behind and tie the score and then on a long range basket forge ahead to victory and the co-championship. Although during the last minute of play the Sequoits peppered the

Maps of Village For Interim Census Are Mailed to Washington

Eleven maps of the Village have been sent to Washington in connection with a village request for an interim census. Census laws call for a complete census each ten years, but it is felt that the additional land which has been annexed into the village, as well as the natural growth of village population, has made the census necessary.

The maps have been prepared by village authorities, and sent according to instructions of the census bureau, Clarence Shultis, village clerk, said today. The maps were in detail, showing each street, lot, and piece of property. Annexed area was shown, as well as other changes since 1950, when the last official census was taken.

Since the state gasoline tax refund is based on population figures, it is certain that the census will result in increased revenue from this source. Also it is thought that the census could possibly show that the population figure has increased to the point that will make mail delivery possible in the village.

Antioch or Wadsworth To Be Site of Mink Food Processing Plant

Antioch or Wadsworth will be the site of the proposed new mink food processing plant of the Central Fur Foods Co-operative.

The selection of a site was narrowed to the two villages this week and a final decision will be made on March 8 at a meeting of the directors at the Imperial Food Co. office, Elmer Herron, Kenosha County, Wis., one of the officials, said.

The Wadsworth site is along the Milwaukee Railroad tracks in the northwest part of the village and the Antioch site is three lots east of the Soo Line tracks.

Antioch has both public sewer and water service to offer as an added inducement.

The co-operative would erect a \$200,000 plant for processing shipped in frozen horse meat and fish with cereals for use as mink food. Most of the members of the organization have farms in Lake County and the fringe in Kenosha and McHenry counties.

Vesper Service Music Provided by A. T. H. S. Sunday; Well Received

The vespers concert presented by the music department of the Antioch Township High School was well received Sunday afternoon.

The a cappella choir and the girls' glee club sang numbers ranging from one of Mendelssohn's compositions to Negro spirituals.

The Madrigal singers made their entrance with the girls escorted by boys who took their places behind them when they sang seated. This is an old English style of singing.

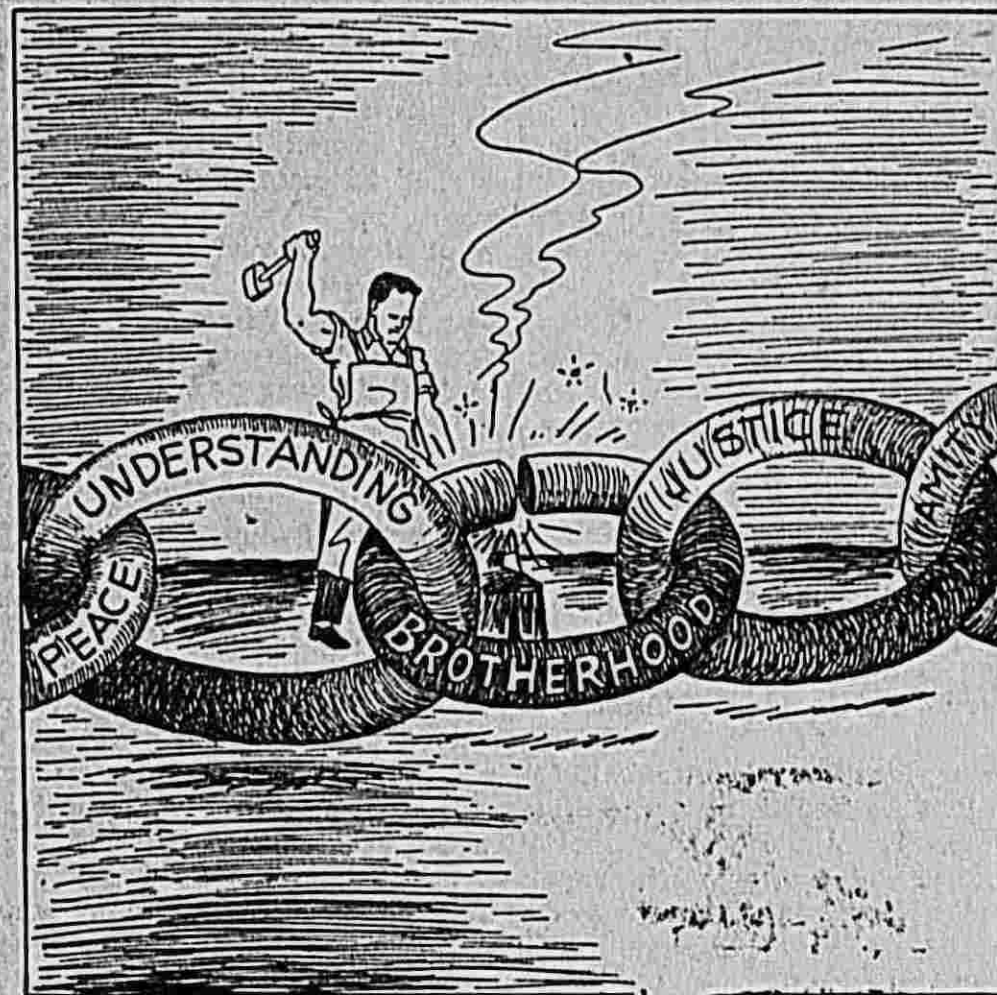

The concert opened with the brass horns of the Town Musicians playing a medley of familiar hymns.

Jill O'Haver sang a solo and Oma Lee Belke and Linda Hollocker sang a duet.

The singers and instrumentalists were directed by Louis Chenette.

The game between Wilmot and Albany tomorrow night will be between two runners up in their respective conference. The two teams appear evenly matched, but Coach Bucci's men believe they can come through with a victory.

Firemen Will Include First Aid Squads in County Organization

Through revision of its by-laws, the Lake County Firemen's association made possible Monday night the inclusion of such organizations as the Antioch rescue squad to membership.

More than 160 firemen, some from Antioch, attended the county meeting at Highwood where the change in the by-laws was made. In most villages of the county the first aid group is closely allied with the fire department and firemen themselves are getting more and more training in first aid.

Chief Delmar C. Newton of Winthrop Harbor announced schools for firemen will be held at Ingleside on Tuesdays, March 6, and March 13. At the first school resuscitation will be taught and at the second, rescue work.

William Murphy of Evanston, president of the State Firemen's association, reported that there will be several state fire schools this spring and summer.

The meeting was held in the Highwood Community Center and the Highwood firemen went all out in showing the visitors a good time. The Sun-Oil Co. Glee club sang several numbers and elaborate refreshments were served.

Channel Lake Fishing Derby Was Success; Won by Fox Lake Man

A Fox Lake resident not yet identified was the winner of the Ice Fishing derby conducted by the Channel Lake Community club last Sunday. He will receive a prize of \$50.

His 24-inch northern pike was the largest of any fish caught by the more than 200 fishermen who participated.

The event was a success Irwin Harland, president of the club said, and added that will be made an annual event. Because reports of the north and south ends of the lake had not been compiled it was not possible last evening to give a complete report.

The annual election of the club was held over until the meeting Saturday, March 3, when the nominating committee will present the names of the candidates. Other nominations may be made from the floor.

The meeting will start at 8:30 p. m. and will be held in the Channel Lake school.

The safety committee has been surveying the community for placement of signs at the entrance of each street advising the public that "Children are at Play." Since the start of the safety campaign local residents have become safety minded and hope to instill this attitude in the minds of the city visitors this summer.

To be recognized by an award from Freedom Foundation is the highest goal the Post can hope for in sponsoring or doing Americanism work. Freedom Foundation was founded in March 1949 to encourage and stimulate every American citizen to "speak up for freedom."

Freedom Foundation annually makes awards under three major headings, First—National awards; second—School awards; third—Academic awards. All awards are selected by distinguished jury composed of state supreme court justices and officials of national patriotic, veterans and service organizations. Pool Bond Sale Tops \$70,000 Goal Set by Lions Service Corp.

Failure to Get Bids on Concrete Type Postpones Contract Letting

Sale of bonds for the new Aqua Center sponsored by the Lions Community Service, Inc., went over the top this week, the \$70,000 issue being oversubscribed.

The corporation today placed bonds in the mail for those who had ordered and paid for them. A few who have pledged and have not sent in their money are expected to do so today which was originally set as the date on which payment could be made.

To G. Dudley Kennedy, captain, and his team of Lions Club members went the honor of having sold the most bonds. They sold \$15,000 worth in an area bounded by Main and Lake sts., Rte. 59 and Townline rd.

Chairman William Brook said he was pleased with the results and the community interest and spirit shown by people of Antioch township.

Although bids were opened last Friday as planned, no contract was let because there were no bids on the concrete type of pool. Those who would bid on this type of pool said they were scared out by the short time in which they were given to build it.

For that reason the meeting was adjourned until tomorrow evening to give more time for bidding on the concrete pool. The directors waived formalities for further consideration of bidding.

Last Friday there were three bids on a steel type of pool all of which were high; two on pool equipment, three on general contract, seven on plumbing and four on electrical installations.

The plumbing and electrical bids will be considered.

There was indication that some of the plumbing will be simplified to reduce the costs without affecting quality or service.

Small Profit on a Roast

Economic Intelligence, which is published by the Chamber of Commerce of the United States, has something of interest to say about the profits earned by the meat packers—and the influence of those profits on your meat bill.

In 1954, the packers sold the incredible total of \$11 billion worth of meat. On that, they earned a profit of \$45 million. This works out to four-tenths of one cent on each dollar of sales. Putting it another way, if you buy a 10-pound roast, one cent to two cents of what you pay goes to the packers. Few people, of course, buy so large a roast, so on a standard sized purchase the packers' profit is much less.

The farmer got the biggest part of the packers' sales dollar by far—76 cents of it went for livestock and other agricultural products. Then payrolls took a little over 12 cents, taxes about one cent, and a variety of other expenses came to a trifle under 11 cents.

It has also been pointed out, wage increases granted packing industry workers in 1955 exceeded by a substantial margin the entire net profits of the industry. The average wage as of a recent date was more than \$100 a week, as compared with about \$81 at the end of 1949.

The packers perform a complex and absolutely essential service for a mighty modest return.

Housepower

"Housepower" is probably a brand-new word to you. But it won't be for long. It is the keyword in a pending national campaign aimed at the wiring bottleneck in American homes. That is a real bottleneck indeed, in this age in which house-holders want and buy more and more time-saving, labor-saving, and pleasure-providing electric appliances. All you have to do to make the appliances work, generally speaking, is to plug the cords into wall outlets. And there's the catch. For the chance

is strong that there won't be enough juice back of those outlets to efficiently and safely power all the equipment you may have or be planning on.

Here are the facts. At least 20 million American homes need modernized wiring to meet the new demands caused by the ever-increasing number of home appliances. The number is steadily increasing. About half of our homes are more than 30 years old, and electric use was small when they were built. And the problem is not limited to those older homes. A discouragingly high percentage of the wiring that goes into new homes can best be described as skimpy.

Wiring troubles show up in various ways—ineffective operation of appliances, dim, shrinking, flickering TV pictures, and frequent blown fuses are common symptoms. Also, when wiring is inadequate, major appliances such as electric ranges and dryers can't be installed.

So—how is your Housepower?

The Shopper Abroad

Americans who haven't lived abroad would be puzzled and annoyed at the way people must go about shopping for food in other countries. In most of these countries, stores are usually forbidden by law to offer such items as fresh meat under the same roof with canned vegetables and soups. In France, for instance, the housewife must go to as many as 14 stores to complete a shopping list—a fruit shop, a smoked meat store, a fresh meat butcher, a bakery, a dairy, and so on.

Here in the United States, where we patronize a family-owned store or a big chain supermarket, we take it for granted that everything we want has been assembled for us—and that the highest standards of sanitation and convenience will prevail.

The superiority of American retailing is not confined to foods. It is found in all the many branches of retailing—as Americans who have traveled abroad will tell you.

Genie

"We in America have more than six billion horsepower of mechanical muscle working for us today," writes W. Alton Jones in the magazine Service. "Tomorrow, with the help of our newest mechanized servant—the genie of automation—we ought to do even better."

Moreover, we'll do better in all ways. For automation is simply one more step in the evolution of the industrial age that began with Watt's steam engine. Every one of those steps has created more jobs, better jobs—and higher standards of working and living for everyone.

WHO PAYS?

"GIMMICKS, GIVE AWAYS, FREE TRIPS, NOTHING DOWN AND PROMISES TO BEAT ANY DEAL," WE ASK YOU WHO PAYS FOR THEM?

Buying a car is a serious investment... be sure you aren't tricked into a deal which is false economy. True, one of the joys of earning a living is spending the fruits of your labor where and when you please. For the most part there are no strings attached to the income at your disposal. Only common sense governs expenditures.

It's truly unfortunate, but soon people from Antioch will have fallen prey to the "city boys" glib offers of gigantic savings, longer than healthy terms, and other gimmicks. In the final showdown most have learned to their dismay that they actually LOST MONEY on their "tremendous" deal.

DON'T BE MISLED — every auto dealer must pay the manufacturer the same price for each unit he sells and each dealer must take a profit to stay in business... someone has to pay for the gimmicks and the high cost of advertising those "tremendous" deals... through the sub-standard products and service that must go hand in hand with such tactics... IS IT YOU?

Your Antioch dealers are in business today — and will be in the years ahead — because, they offer the best automotive quality available and stand solidly behind the cars they sell. The competition between us is keen — but CLEAN!

If one can't sell you we hope the other can because we all know that it's good for you and for our community.

Your Antioch Automobile Dealers have a BIG investment in their shops, equipment, tools and parts to be used for your constant and efficient service.

The taxes they pay — on business and home — play a very important part in keeping your taxes equitable.

Antioch High Freshmen to Observe Bundle Week By Collecting Unwanted Clothing March 12-16

Bundle up that overcoat—along with all those other outgrown, unwanted, but still usable garments that clutter every household's closets, for the week of March 12-16 is "Bundle Week" at Antioch Township High school.

This project, sponsored by the Save the Children Federation, is handled by the Freshman class. The Federation is a non-political, non-sectarian, non-profit group organized in 1932 to serve underprivileged children without regard to race or creed.

Items needed most this year seem to be sweaters, shirts, pants, dresses, socks, pajamas, coats, sheets, shoes, blankets, baby shirts, and booties. Surely innocent children deserve more than rags. These victims of poverty, war, or natural catastrophes do not ask for much—merely for garments we ourselves no longer wear. This is a modest request, one that can be fulfilled usually by cleaning our own clothes closets.

Any such items, not in use, send them to your high school by your children or neighbor's children, where they will be boxed and shipped to the headquarters of the Save the Children Federation. Certainly the Freshman class, carrying on this project can teach us a lesson in democracy and humanitarianism through their clothing campaign.

Ask Income Taxpayers Not to Wait Until Near April 16 Time Limit

The 1956 income tax filing period is past the half-way mark and to the many taxpayers who haven't filed their 1955 income tax returns it's time to say "File now—it's later than you think." That April 16th deadline is not far off. Tax blanks were mailed to all taxpayers who filed 1954 returns, but if for some reason you haven't received your forms, you may obtain them at any Internal Revenue branch office.

The Internal Revenue Service has completely rewritten—and has much improved—the instructions mailed with your tax return. Most taxpayers should be able to complete preparation of their own returns with careful study of the tax form and accompanying instruction material.

But for those who have a problem or two, our office stands ready to give assistance or advice. If you can present the facts on your problem over the phone, call the Internal Revenue branch office nearest your home or place of business. Consult the telephone directory for the address and telephone number of your local office.

Refunds Now on Way
Refund checks on 1955 returns are on their way to taxpayers who have already filed their returns. Thousands more checks are being processed and will reach taxpayers shortly.

Sometimes taxpayers do not receive refunds when expected. Such taxpayers are requested NOT to write or call our office concerning refunds at this time. Such inquiries will only delay receipt of their checks.

Prepare and file your return now. Avoid the rush and pressure of the last minute.

Antioch Bows Out.....

backboard, the ball managed to avoid the basket, and Al Reckers' foul shot which would have tied the score refused to go in.

Antioch was leading 64 to 57 with but four minutes to play when Elagot hot and closed the gap.

The cause of the Antioch defeat was Al Bathrick. He made 12 points on free throws although making but four field goals. Antioch while making 24 field baskets to Elagot's 20, made only 19 free throws to the Bears' 28, so it was from the free-throw line that the visitors gained their victory.
